

A large, light-blue, circular cloud representing the proton's volume. Inside, three smaller circles represent quarks: two red circles, each with a white 'u', and one green circle with a white 'd'.

Proton

A large, light-blue, circular cloud representing the neutron's volume. Inside, three smaller circles represent quarks: one red circle with a white 'u', one blue circle with a white 'd', and one green circle with a white 'd'.

Neutron
